

YOUR PAID ADS, EXPLAINED

You bring the raw material, **we make it sharp, we run it**, and you watch the results. Here is how paid ads work inside your portal.

Your walkthrough video is on the way. Until it lands, this one-pager covers exactly the same thing - read it once and you are set.

1

MARKETING → ADS

WHERE YOUR ADS LIVE

Everything paid sits under **Marketing → Ads** - your live campaigns, your spend, and your cost per lead, all in one place.

2

CAMPAIGN BUDGET

YOU CONTROL THE SPEND

Want to push harder or pull back? Adjust your own **ad spend** right on the campaign. You change it, it updates - no waiting on us.

3

ADD NEW CREATIVE

REQUEST A NEW AD

Hit **Add new creative**. You are not building a finished ad - just drop in your raw photos and clips with a quick note on the vibe. Pick your **format** and whether you want **on-screen captions**. Time-sensitive? Check **Mark as urgent**, then submit.

4

WHAT'S IN FLIGHT

WHAT HAPPENS NEXT

Our content team turns your raw assets into a polished creative, then marketing launches it on Meta. Track the whole thing under **What's in flight** - every request shows its status.

5

ACTION NEEDED

IF WE NEED YOU

If we need a quick answer, you will see an **Action needed** flag. Reply right there and we keep moving.

You bring the raw material, **we make it sharp, we run it**, you watch the results. Questions? Message the team right in the portal.
